

# BalleticFoods

## Food Scientist

Balletic Foods is looking for an experienced Food Scientist to join our Product Development team in a fast-paced start-up work environment.

### About Us

Balletic Foods™ is a California based company working towards a sustainable food system by combining science and technology to create new sources of animal-free protein. If you are passionate about using biotechnology to build sustainable new sources of protein, join our team of scientists and entrepreneurs to change the world's food system.

### You are

- A self-starter with excellent organizational skills including prioritizing, scheduling, time management, and meeting deadlines
- A positive and inclusive team player with the ability to communicate effectively in oral presentations and written communications
- Able to work independently and with a team
- Passionate about changing the world's food system and able to work under tight deadlines
- Paying meticulous attention to detail, particularly with regard to health, safety and hygiene

### Responsibilities

- Developing and demonstrating various food concepts in the CPG space
- Collaborating with vendors and suppliers to effectively source materials and services
- Evaluating the nutritional value, flavor and texture of food
- Investigating and setting standards for safety and quality
- Planning and organizing product development projects from concept through commercialization, including assessing customer requirements, producing test samples, developing product and process specifications, and coordinating sample shipments
- Using technical expertise to troubleshoot production challenges

### Requirements

- Food Science degree or 5+ years relevant experience in food product development
- Excellent verbal and written communication skills
- Understanding of food chemistry, protein chemistry, ingredient functionalities, food processing techniques and evaluation tools (texture, sensory, etc.)
- Knowledge of US food laws and regulations
- Experience with launching CPG food products is a strong plus
